

06.12.2019

To whom it may concern

As AYGAZ A.Ş., we have been using Prosense Gas Alarm Systems and Gas Dedectors since 2013 for our domestic bulk LPG customers and Autogas/LPG Refuelling Stations.

Aygaz, the market leader in LPG industry has more than 1.700 autogas refuelling stations throughout Turkey, where Prosense gas dedectors are used at LPG Storage tank site and at LPG Dispenser islands.

We have been using more than 5.000 pieces of Prosense gas dedectors under different climatic conditions and different geographical locations and we can confirm that Prosense gas dedectors are safe and reliable when our experience is considered.

Sincerely yours

Ü. Bülent Daş
